SS8 TRAINING & NUTRITION SYSTEM

Torch More Bodyfat with Dr. Stoppani's
8-Week Fat Loss Sprint! (details inside)

MULTI-STAGE FAT LOSS, UNPARALLELED RESULTS*

SS8 contains key ingredients to support the release and burning of stored body fat, as well as limit potential regain of fat through several distinct pathways – making it a true multi-stage fat loss system.* Here's how.

ACCELERATE

Promotes an increased metabolic rate to help burn more fat and calories throughout the day*

BURN

Supports activation of brown adipose tissue to convert calories into heat rather than storing them*

TRANSPORT

Encourages release of fat from fat cells to be shuttled to muscle and burned for energy*

REGULATE

Helps regulate carbohydrate metabolism and insulin sensitivity for steady energy levels while dieting*

STABILIZE

Supports energy and mental focus via an extended-release caffeine delivery system*

SUSTAIN

Aids appetite regulation and caloric intake to support short- and long-term fat loss*

MY GUARANTEE

Built on the best components of the original formula, SS8™ has been upgraded to include ingredients, dosing, and delivery technology that I believe makes it the most complete fat loss supplement strategy available. The ingredients I selected work by enhancing the release and burning of stored body fat as well as limit potential regain of fat through multiple pathways. SS8™ is the advanced formula I use and recommend for losing unwanted body fat and sustaining your ideal physique long term. I hope it will help you, too, enjoy your best – and leanest – body ever.*
